

### Early Intervention Services (EIS) (Core Medical Service)

**HRSA Description:** The elements of EIS often overlap with other service category descriptions; however, EIS is the combination of such services rather than a stand-alone service. HRSA RWHAP Part recipients should be aware of programmatic expectations that stipulate the allocation of funds into specific service categories. HRSA RWHAP Parts A and B EIS services must include the following four components:

- Targeted HIV testing to help the unaware learn of their HIV status and receive referral to HIV care and treatment services if found to be HIV positive
- Referral services to improve HIV care and treatment services at key points of entry
- Access and linkage to HIV care and treatment services such as Outpatient/Ambulatory Health, Medical Case Management, and Substance Abuse services.
- Outreach Services and Health Education/Risk Reduction related to HIV diagnosis

**2018 Council Prioritization Ranking:** 5 out of 12 service areas

### Funded providers

- Full Proof Ministries
- NorthPoint Health and Wellness Center
- Red Door Clinic
- The Aliveness Project
