

Quick Reference Handout 5.1: Quick Guide to RWHAP Part A-Fundable Service Categories

Introduction

The chart below provides brief summary explanations of the 28 service categories that can be funded through Part A of the Ryan White HIV/AIDS Program (RWHAP). They are designed to provide an understanding of the kinds of services supported through RWHAP Part A, but are not intended to provide formal definitions.

The service categories are arranged into two groups, RWHAP Core Medical Services and RWHAP Support Services, and are listed alphabetically within those groups:

- The 13 RWHAP Core Medical Services are specified in the legislation [§2604(c)(3)(A-M)].
- The 15 Support Services were approved by the Secretary of Health and Human Services, and are defined as “needed for individuals with HIV/AIDS to achieve their medical outcomes (such as respite care for persons caring for individuals with HIV/AIDS, outreach services, medical transportation, linguistic services, and referrals for health care and support services).” “Medical outcomes” are “those outcomes affecting the HIV-related clinical status of an individual with HIV/AIDS” [§2604(d)(1-2)].

The brief descriptions below are based on HRSA/HAB Policy Clarification Notice (PCN) 16-02 (Revised 10/22/18),¹ supplemented by clarifications in the related Frequently Asked Questions (FAQs) document.²
