

## Attachment 4: Unmet Need

### Required Reporting Template A - Unmet Need

Reporting Template A - Unmet Need					
Jurisdiction Name: Minneapolis-St. Paul			Approach?		Enhanced
			Linked Databases Used?		Yes
Definition/Description		Number	Percent	Data Source	Year(s) of Data
A	B	C	D	E	F
<b>HIV SURVEILLANCE DATA</b>					
<b>Late Diagnosed</b>					
1	<b>Late diagnoses:</b> Number of people with late diagnosed HIV in the most recent calendar year in the jurisdiction based on residence at time of diagnosis. Late diagnosed HIV is based on the first CD4 test result (<200 cells/mL or a CD4 percentage of total lymphocytes of <14) or documentation of an AIDS-defining condition ≤3 months after a diagnosis of HIV infection	55	24.1%	HIV Surveillance data	2019
2	<b>New diagnoses:</b> Number of people in the jurisdiction with HIV diagnosed in the most recent calendar year based on residence at time of diagnosis	228			
<b>Unmet Need</b>					
3	<b>Unmet need:</b> Number of people living with diagnosed HIV infection in the jurisdiction based on most recent known address without any CD4 or VL test in the most recent calendar year	879	12.8%	HIV Surveillance data	2019
4	<b>Population size:</b> Number of people living with diagnosed HIV infection in the jurisdiction based on most recent known address who had an HIV diagnosis or any other HIV-related lab data (e.g., CD4, VL, genotype, or HIV test even if already diagnosed) reported to the HIV surveillance program during the most recent five calendar year period	6,849		HIV Surveillance data	2015 -2019
<b>In Care, Not Virally Suppressed</b>					
5	<b>Not virally suppressed:</b> Number of people living with diagnosed HIV infection in the jurisdiction who are in care and whose most recent viral load test result was ≥200 copies/mL in the most recent calendar year	737	12.3%	HIV Surveillance data	2019
<b>RYAN WHITE HIV/AIDS PROGRAM (RWHAP) DATA</b>					
<b>Unmet Need</b>					
6	<b>Unmet need:</b> Number of RWHAP clients in the jurisdiction without any CD4, VL test or OAHS visit <sup>3</sup> in the most recent calendar year	139	3.4%	RWHAP Database; HIV Surveillance data	2019
7	<b>RWHAP clients:</b> Number of RWHAP clients in the jurisdiction who received any RWHAP or RWHAP-related funded service in the most recent calendar year	4,090		RWHAP data	
<b>In Care, Not Virally Suppressed</b>					
8	<b>Not virally suppressed:</b> Number of RWHAP clients in the jurisdiction who are in care whose most recent viral load test result was ≥200 copies/mL in the most recent calendar year	666	16.9%	RWHAP Database; HIV Surveillance data	2019
<sup>1</sup> Linked database jurisdictions may also use data from RWHAP or other databases as long as data are from a clinical source. Linked databases may only be used for care pattern definitions and in care, viral suppression <sup>2</sup> Linked database jurisdictions may also use data from HIV Surveillance or other databases as long as clinical data from other databases are from a clinical source. Linked databases may only be used for care pattern definitions and in care, viral suppression <sup>3</sup> Jurisdictions may choose to use other services to reflect HIV primary medical care. Any variation from the definitions should be clearly stated in documentation that accompanies the estimates.					
Items in green reflect cells linked from other datasheets
