

Housing Services

2012 Service Area Review Summary

HRSA Support Service

Essential Access Service—
Continuum of Care

Comprehensive Plan—NO

Housing Services - The provision of limited, short-term assistance to support emergency, temporary or transitional housing to enable an individual or family to gain or maintain medical care. Housing-related referral services include assessment, search, placement, advocacy, and the fees associated with them. Eligible housing can include both housing that does not provide direct medical or supportive services and housing that provides some type of medical or supportive services such as residential mental health services, foster care, or assisted living residential services.

There is currently 1 contract with metro providers and 0 contracts with greater MN providers to serve 31 clients.

DATA SUMMARY HIGHLIGHTS

This service is currently provided as an activity within Medical Case Management as a core medical service. The current allocation provides Medical Case Management to navigate in and out of the adult foster care system. The Council has not traditionally allocated resources in this service area because of the other available housing resources available to persons living with HIV disease (Housing Opportunities for People with AIDS - HOPWA, The Minnesota Housing Authority, and emergency housing assistance within the Emergency Financial Assistance Service Area).

In the 2010 Comprehensive Needs Assessment of Minnesotans Living with HIV Disease, 87% of the 509 respondents indicated that they had not received short-term housing assistance to support emergency, temporary or transitional housing within the past year. Of those who had not received short-term housing assistance in the past year (n=441), twenty-four people (5%) indicated that they needed short-term housing assistance in the past year. The barriers or reasons listed by those people who needed to but were unable to access short-term housing assistance during the past year included no funding available/not available in my area (9), did not know where to go (2), did not qualify, did not ask, staff issues, and long wait.

In the same needs assessment, 60% of the respondents (n=567) indicated that they were at risk of homelessness. In addition, 30% of the respondents indicated that they paid more than 30% of their income toward rent in the past 12 months. The barrier mentioned most often to obtaining affordable housing was high rent (17% of the respondents).
