V. Recipient Reports

- **Part A:** Jonathan Hanft provided the update on behalf of Part A.
 - Jonathan reported that the Part A grant award was received and noted that there was a slight decrease in funding and compared the funding from 2020 vs 2021. (below)
 - Jonathan pointed out that this was the first time a decrease in funding for Minority AIDS Initiative (MAI) has occurred.
 - Jonathan thinks the reason for the reduction is because other jurisdictions in the country had larger increases in HIV incidence and prevalence among communities of color than Minnesota.
 - Planning and Allocations will determine if and where funding will need to be reduced for services. He noted that because funding has been flat, administrative costs cannot be reduced.
 - Carryover funds have been approved and can be used to make up the difference.
 - Jonathan noted that HIV is considered an underlying condition and people living with HIV are eligible for the COVID-19 vaccine.
 - The Hennepin Healthcare Foundation and the Minnesota Department of Health are working on a project that will track vaccinations among people with HIV to help maximize vaccination efforts.
