<https://www.mnhivcouncil.org/trainings.html>

Early Identification of Individuals with HIV/AIDS (EIIHA) Update: TBD

Part A Assessment of the Administrative Mechanism: Sept 13

HIV Clinical Update: TBD

Attendance at these trainings is **highly recommended**. The Ryan White HIV/AIDS Program Planning Council Primer stipulates members need to learn how to participate in the many tasks involved in RWHAP planning. Planning councils must provide orientation for new members, covering topics such as the legislation and their roles and responsibilities in planning, as well as those of the recipients. All planning council members should receive periodic training to help them carry out their roles.
